• **Justification for delay in result for Architecture and pharmacy:**

1. Major reason for delay in declaration of results for Architecture and Pharmacy streams was insufficient number of approved paper evaluators.
2. Assessment took longer time since number of students appeared to the examination were entire state of Maharashtra
3. IUMS vendor software (provided by MahaIT GoM) has suddenly stopped the services, due to this University identified new service provider for MIS and DVS (IT based solutions) which has taken time to tune with software. University took following measure for declaration of results

• **Action taken by the University**

1. Reported to affiliation section for issuing warning letter to non performing institute
2. Individual examiners/paper setters were issued notices and asked them to submit reasons for delay in evaluation and paper setting.

3. The provision is also made in the AAR to check whether institute has done examination evaluation work in time or not. Appropriate weightage is given to examination activity while evaluating annual academic performance of the institute.

Henceforth, University will assure that all activities related examination will be completed within given deadline.
