Getting admission in the university for my ward is a matter of pride for me.	Technical knowledge, communication skill acquired by your ward after taking admission to our petrochemical department?	Are you aware about teaching learning process in the department?	Are you satisfied with your ward academic performance at present?	Are you satisfied with the examination system adopted in university?	Are you satisfied with the students discipline of the university?	Do you think that parents teacher meeting should be organized every semester?	Valuable suggestion for improvement.
